Full Stack Developer

Full-Stack Developer skilled in HTML, CSS, JavaScript, PHP & MySQL with experience building responsive, user-friendly projects and a 1-month Front-End Developer Trainee at Nitsan Technologies.

SKILLS

- **Front-End :** HTML, CSS, JavaScript, Bootstrap, Tailwind css.
- **Back-End skill** : PHP with MySQL.
- **Other** : Browser Developer Tools, Git, GitHub, GitLab, web performance optimization.

EXPERIENCE

1. Front end Trainee Developer
   - Completed trainee program at NITSAN Technologies; built a full project from scratch with HTML, CSS & JavaScript, implementing responsive UI, performance optimizations, version control, secure coding, and user-focused design.

2. Internship : Sidhwani technologies Bhavnagar
   - Built a full-stack web application to manage child adoption records — a 15-day project featuring a modern, responsive glassmorphism UI with user registration/login, inquiry forms, admin dashboard, and dynamic content using HTML, CSS, JavaScript, PHP & MySQL.

ACADEMIC PROJECTS

1. Aptitude test preparation platform :
   - Built a student aptitude practice platform with user-friendly layouts, scoring, and interactive questions using HTML, CSS, JavaScript, PHP & MySQL.
2. Read Mead :
   - Built a digital platform for searching, reading, and downloading books with user login, uploads, and category-wise browsing using HTML, CSS, JavaScript, PHP & MySQL.

SELF INITIATED PROJECTS

1. Self-initiated project: Developed a clean, interactive portfolio website showcasing skills, projects, and professional experience with HTML, CSS & JavaScript. https://view-my-portf.netlify.app/
